DIRECTIONS

The Ultima hair topper adds extra volume at the sides. The U-shaped base is easy to integrate into your own hair.

1

Part your hair at the top of your head. You can secure the separated hair with a hair band.

2

Place the clips around the separated hair from back to front, starting in the middle. Make sure the hair topper lies completely flat.

3

Now open the separated hair and comb it lightly to integrate it into the Ultima topper. Voilà. Enjoy your perfect volume! Good to know, the Ultima hair topper is made of heat-friendly high-heat hair and can be styled as desired.

www.aderansuk.com

TIP: Gently back-comb your hair at the roots before applying the clips will make them even easier to attach.
